

Federal Railroad Administration (FRA)

Starr Kidda

Dr. Starr Kidda is an engineering psychologist in the Human Factors Division of FRA's Office of Research, Development & Technology. Starr has been at FRA since 2013 supporting a wide range of human factors research efforts, including grade crossing and trespass/suicide prevention research and the development and evaluation of the Short Line Safety Institute. Prior to joining FRA, Starr was a program analyst for the Department of Health and Human Services, Office of Inspector General. Starr has a B.S. in Psychology from Davidson College and a Ph.D. in Industrial/Organizational Psychology from the University of Georgia.
