

Centers for Disease Control (CDC)/
National Institute for Occupational Safety and Health (NIOSH)

Stephanie Pratt

Dr. Stephanie Pratt directs the Center for Motor Vehicle Safety in the National Institute for Occupational Safety and Health (NIOSH). In this role, she is responsible for coordinating motor vehicle safety research and outreach across the Institute, and she represents NIOSH in numerous public-private road safety initiatives, interagency working groups, and standards committees. She serves as federal liaison to the Network of Employers for Traffic Safety, and co-chairs the committee on work-related road safety in the UN Road Safety Collaboration. Dr. Pratt's current research includes analysis of matched data on fatal work-related crashes from two U.S. federal agencies; and analysis of driver, vehicle, and claims data in partnership with a large corporation and its fleet service providers. In her 23-year NIOSH career, Dr. Pratt has made nearly 100 professional presentations and authored numerous publications. She holds a PhD in political science and policy analysis from West Virginia University.
